

I oppose loosening the rules designed to promote and protect diversity of media ownership. These rules were adopted to ensure that the public would receive a diverse range of viewpoints from the media, and not simply the opinions of a handful of media conglomerates.

after my many years of research and study, i have come to know that the major media are but the mouthpiece for the moneyed interests and no longer serve the will of the people. i am one among the many and varied peoples who feel ripped off by the control of the media and the lame programming we've endured. i seldom tolerate the spam that is the commercial media output and choose to find news, entertainment, and information in the vast array of alternative sources that are available on the internet and the occasional non-commercially funded radio station.
